

# 2017 *America's Health Rankings*<sup>®</sup> - Changes

- **Mental Health Providers** was added to the clinical care category of the model to broaden the definition of clinical care to include mental health care in addition to primary care and dental care.
  - Defined as the number of psychiatrists, psychologists, licensed clinical social workers, counselors, marriage and family therapists, providers that treat alcohol and other drug abuse, and advanced practice nurses specializing in mental health care per 100,000 population.
  - The clinical care category weight was redistributed equally between the five clinical care measures.
- **Lack of insurance** was renamed **Uninsured**. The definition and data source remain the same.
- **Public Health Funding**: This year, rather than an average of the 50 states and the District of Columbia as was presented in previous editions, the U.S. average was calculated using the U.S. total for each of the three funding categories included in the numerator.
- **Immunizations-Adolescents, HPV Females & HPV Males**: The Advisory Committee on Immunization Practices released updated human papillomavirus (HPV) vaccination recommendations in December 2016. Based on the new recommendations, the HPV immunization measures are now defined as the percentage of adolescents aged 13 to 17 who are up to date on all recommended doses of HPV vaccine. The previous definition was based on the initial three-dose series recommendation.
- Supplemental measures added: Disconnected Youth, Neighborhood Amenities, Dedicated Health Care Provider, & Six + Teeth Extraction

# 2017 AMERICA'S HEALTH RANKINGS®

## Top Ten

- 1 - Massachusetts (I)
- 2 - Hawaii (IX)
- 3 - Vermont (I)
- 4 - Utah (VIII)
- 5 - Connecticut (I)
- 6 - Minnesota (V)
- 7 - Colorado (VIII)
- 8 - New Hampshire (I)
- 9 - Washington (X)
- 10 - New York (II)

## Bottom Ten

- 41 - Georgia (IV)
- 42 - Kentucky (IV)
- 43 - Oklahoma (VI)**
- 44 - S Carolina (IV)
- 45 - Tennessee (IV)
- 46 - W Virginia (III)
- 47 - Alabama (IV)
- 48 - Arkansas (VI)
- 49 - Louisiana (VI)
- 50 - Mississippi (IV)

## Other (Region VI)

- 34 - Texas (VI)
- 36 - New Mexico (VI)
- 43 - Oklahoma (VI)**
- 48 - Arkansas (VI)
- 49 - Louisiana (VI)

# 2017 - Oklahoma 43<sup>rd</sup>

## Strengths:

- Low prevalence of excessive drinking
- Small disparity in health status by educational attainment
- High number of mental health providers

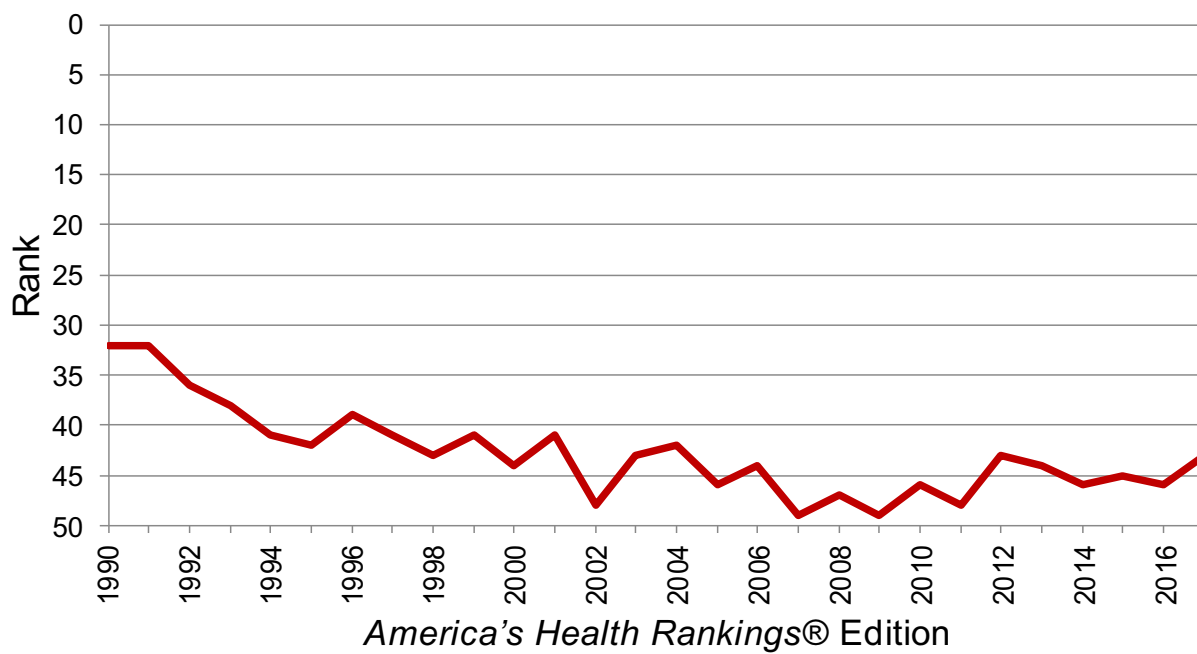

## Challenges:

- High percentage of uninsured
- High cardiovascular death rate
- High infant mortality

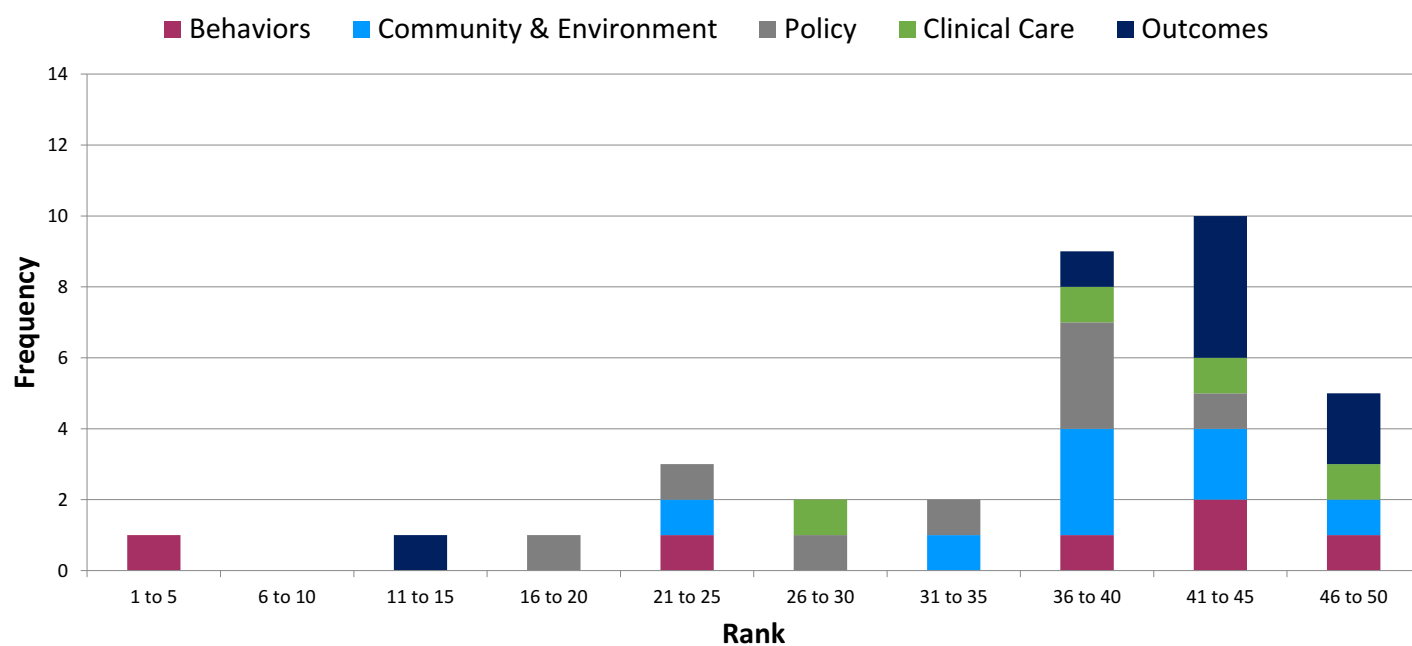

## Highlights

- Improved rank from 46<sup>th</sup> (2016 Edition) to 43<sup>rd</sup> (2017 Edition)
- Low birthweight births have decreased 7% over the past four years
- Immunization coverage (19 to 35 months) decreased 11% since last year
- Smoking has decreased by 25% over the past five years
